**Smith & Loveless' latest grit removal product provides
complete screening and grit removal in one package**

LENEXA, Kan. – Smith & Loveless Inc. announces its latest headworks innovation, **PISTA® WORKS™**, offering a pre-engineered packaged headworks system combining screening, grit removal and grit washing into one integrated system.

The complete **PISTA® WORKS™** system is pre-assembled and shipped direct to the job site, significantly reducing field-installation costs while allowing for a compact footprint. All equipment components are constructed of stainless steel and utilize multiple patented technologies including world-class grit removal technologies **PISTA® 360™** with **V-Force Baffle™**, S&L Turbo Grit Pump and the **PISTA® TURBO™** Grit Washer featuring **Tri-Cleanse Technology™**.

Package components also include ANSI flanged connections, a 6 mm fine auger screen, manual bypass bar screen, two platforms for easy equipment access, and epoxy-coated carbon steel skid support for the complete system with concrete fill. Additionally, the system comes with a PLC-based control system with touch screen, color HMI interface and NEMA 4X panel to operate the entire system.

PISTA® WORKS™ operates peak system flow capacity from 0.5 MGD to 7.0 MGD depending on the model. For complete sizing data information or to find a Smith & Loveless treatment sales representative near you, call 1-800-898-9122 or visit www.smithandloveless.com.

Founded in 1946, Smith & Loveless Inc. is a global leader in the water and wastewater industry, offering a complete line of equipment and boasting installations in more than 70 nations around the world.
