**Smith & Loveless Introduces PISTA® PRO-PAK™ for PISTA® TURBO™  
Weather Protection**

LENEXA, Kan. – Further enhancing the world’s best grit removal scheme in a weather-protected, factory-assembled package, Smith & Loveless introduces the PISTA® PRO-PAK™.

Offering weather and freeze protection for the PISTA® TURBO™ Grit Pump, the PISTA® PRO-PAK™ is a cost-saving alternative to constructing and providing utilities for a new building. The custom-engineered PISTA® PRO-PAK™ features a factory-assembled PISTA® drive assembly, vacuum priming system and controls mounted to a steel base and housed within a retractable fiberglass enclosure.

The drive motor, pump and related components are factory pre-wired and mounted to the base, all to minimize and expedite field installation. The optional heater add-on offers protection for even the harshest environments. The PISTA® PRO-PAK™ is available in four material finishes, including DURO-LAST® corrosion-resistant stainless steel (with 25-year warranty), and operates peak system flow capacity from 0.5 MGD to 100 MGD.

As with all Smith & Loveless products, the patent pending PISTA® PRO-PAK™ delivers the lowest life-cycle costs, is made in the USA, and all the equipment comes housed in an enclosure to provide you with years of dependable service.

Founded in 1946, Smith & Loveless, Inc. is a global leader in the water and wastewater industry, offering a complete line of equipment and boasting installations in more than 70 nations around the world.
