Smith & Loveless Releases Fall 2009 Quarterly Parts Catalog

LENEXA, Kan. – Smith & Loveless Inc., an international leader in water and wastewater treatment and pumping equipment, has released the new Fall 2009 Treatment Quarterly Parts Catalog which features the newest products in wastewater treatment. To access the new fall catalog, visit www.smithandloveless.com for a downloadable copy or call a Smith & Loveless representative to receive a free copy.

The fall catalog introduces the new **PISTA® 360™** Grit Removal System with patented **V-Force Baffle™**. The **PISTA® 360™** with **V-Force Baffle™** is proven to have an overall grit removal efficiency of 95 percent by sustaining steady grit removal during low-flow and peak flow conditions. The catalog offers a detailed guide to grit testing and includes a variety of case studies focused on cross-channel sampling versus the vertical integrated sampler. Other topics covered in this issue include, but are not limited to, new **PISTA®** upgrades and drive assembly parts, pinch valves and associated spare parts, the **Sonic Start®** Prime Sensing System, vacuum pumps, mechanical seals and miscellaneous parts. The new catalog also offers several pages of sizing charts that will assist customers in the specific spare parts for their **PISTA®** Turbo Grit Pump model, whether it be *Top Mounted* or *Remote Mounted*.

With more than 60 years of experience in the wastewater field, Smith & Loveless Inc. offers a complete line of treatment and pumping equipment. To receive your copy of the Fall 2009 Treatment Quarterly Parts Catalog, or to learn more about the benefits of Smith & Loveless, please contact:
